Guys i've been trying to use face id with natrium but the phone detection angle seems a bit prohibitive and particular. I think it'd be best for me to just go with 6-digit pin for reliability. My iphone doesn't have touch id unfortunately. Anyone else using an iphone x or newer later?

ehotch-SF 07-Sep-19 12:09 PM

Yes

And to go with the pin if i recall correctly you have to delete Natrium and set it up again from the start  
I had to do that last time

bryanwag 07-Sep-19 12:49 PM

@fonso use 6 zeros for quicker enter

lukas 07-Sep-19 01:22 PM

I'll do the same

bryanwag 07-Sep-19 01:24 PM

@Participant Run #3 double check that your balance is 0. We don't want two Nanos passing around like last time.

Eddd Leeds UK 07-Sep-19 02:04 PM

55 mins guys

fonso 07-Sep-19 02:33 PM

Turns out there's no need to reinstall with the new version of natrium

bryanwag 07-Sep-19 02:44 PM

while we are patiently waiting, make sure you save batteries!

Jay 07-Sep-19 02:53 PM
